

# MORE RUGGEDNESS, MORE OPTIONS

## G2\_GIANT CORNER GUARDS

The GIANT CORNER GUARDS from PWA are designed slightly higher than the standard corners of the TOUGHBOOK G2. They ensure optimum fall protection for protruding attachments/solutions such as the TRIMBLE RADIO on the TOUGHBOOK G2. In addition, a straight support surface is maintained.

In addition, the GIANT CORNER GUARDS offer fixing options for various carrying mounts. This means that transport comfort can be adapted to the situation and makes everyday work easier.

### FUNCTION

Fall protection and more comfort

### FACTS

- Drop resistance up to 120 cm
- TOUGHBOOK G2 lies flat, including protruding solutions such as TRIMBLE RADIO.
