

# 2 IN 1 – HANDLE AND STAND

## G2\_PUT UP HINGE

This 2-in-1 solution is a modification of the RUGGED HANDLE. As such it can be used as a comfortable, stable transport aid. In addition, the handle can be gradually converted into a stand at a 60° angle.

Like the RUGGED HANDLE, this handle is just as well generously proportioned, allowing it to be gripped quickly and securely. It is also slightly beveled, so that the tablet can be placed comfortably on the forearm and be operated more easily.

### FUNCTION

Comfortable to carry and stable computer stand

### FACTS

- The handle can be converted into a stand in 60° steps.
- „Handle carrying system“
- Improved ergonomics when working in the hand due to the bevelling of the handle
- By adding the lower GIANT CORNER GUARDS a plain support surface is obtained.

### FEATURES

- Ergonomic shape
- Intuitive product design
- Pleasant haptics thanks to modern 3D printing material

### USEABLE WITH PWA SOLUTIONS

- PWA\_G2\_NFC (NFC READER)
- PWA\_G2\_OSCR (OPEN SMART CARD READER)
- PWA\_G2\_MEDICAL (MEDICAL BUNDLE)
- PWA\_G2\_GCG (GIANT CORNER GUARDS)

### ORDER NUMBER

PWA\_G2\_PuH
