

# ROBUST CONNECTION FOR INTERFACE

## G2\_RUGGED USB

More resilient than the usual! The G2\_Rugged USB is ideally suited for all adverse working environments and those where frequent USB changes are the order of the day.

It is also protected from rain - even without a cover - thanks to the encapsulated mounting technology. The pin assignment of the interface can be configured individually according to customer requirements and can be integrated for many common formats.

### FUNCTION

Customizable rugged interface
